

## Saint Patrick's Day

On March 16<sup>th</sup> 2018, UPCI celebrated St Patrick's day in order to promote the culture of English-speaking countries. The main objectives were:

- ❖ Offer students the possibility to learn about Saint Patrick's Day from their teachers in a fun way.
- ❖ Make students aware that learning about a culture can be fun.

# Happy St. Patrick's Day!

- ❖ Create compelling activities to engage students with a view to make cultural awareness an everyday practice.

**Happy St. Patrick's Day!**

We carried out different activities such as the decoration of the classroom doors with images related to this important Irish celebration, some games that people play this day, and we asked all the UPCI community to wear something green. Also, we have a mini-parade along the school corridors and play videos on a screen about the history of St Patrick's day, and about parades in New York City and Dublin. The students and English professors, who were the ones who participated in most of the activities, were very enthusiastic and participative.

Some of the games played were:

1. Jeopardy
2. Gold Hunt
3. Gold Coin Toss
4. Wearing off the Green
5. Easter egg roll
